

Lahoux *Spotter S*

The perfect thermal entry-level model

Lahoux Optics

Lahoux *Spotter S*

The perfect thermal entry-level model

The Lahoux Spotter S is our new entry-level model with very good imagery and options only found in more expensive models.

The ergonomic design fits well in most hands and because of its compact size it will fit in a pocket. With a state of the art detector and the best image in its class, the Lahoux Spotter S is a reliable partner for mostly forest and short range use. The light weight enables the user long observation time without fatigue. The silent buttons, fast start up and long run time makes sure you will not miss a thing.

Features

- Intuitive operability
- Up to 8 hours runtime
- Easily replaceable and rechargeable 18650 battery
- 2 seconds start up
- Wifi streaming onto the Lahoux App
- Photo and video recording
- PIP
- Wide field of view
